

There are **three** ways to sign into the University of Calgary's online Library Services remotely:

1. **IT username and password** - it's the same username/password combination that you use for your staff, student and faculty email account.
2. **Library Barcode and Password**- use the barcode on the back of your Unicard, but only type in the first 9 digits. The password is your student number or staff ID on the front of your card (if it contains leading zeros, please drop them).

3. **Continuing Education UCID/Password**. You will receive this information via email after you register. You can only log in when you are actively enrolled in a course.
4. **Trouble logging on?** - please visit, <http://www.ucalgary.ca/it/help>
